

Aminah Abd Rahman now serves as the General Manager for the Sustainable Construction Excellence Centre (MAMPAN). She plays a vital role in managing the excellence centre which also acts as a catalyst and referral centre in transforming Malaysia's construction industry focusing on sustainability. Her 15-years of experience in development control is fully utilized to drive MAMPAN's role in promoting environmental sustainability practices. Previously she was the Chief Consultant of Development Control under the Department of Local Government, Ministry of Housing and Local Government of Malaysia.
